HEALTHSKY

HEALTHSKY
Histology Solutions

About HealthSky

Founded in 2004, HealthSky has been dedicated to the research, development, manufacturing, sales, and service in the field of pathology for two decades.

HealthSky is committed to providing unique and advanced solutions for cervical cancer screening and histologic diagnosis.

12 Invention Patents

Located in Hangzhou, HealthSky spans an area of 12,000 square meters and is certified with ISO 13485:2016. The facility includes an R&D center, a standard manufacturing plant, and an accredited pathology diagnostic laboratory. The company employs over 300 people, including more than 50 R&D researchers, with 60% holding Ph.D. or Master's degrees.

35 Utility Patents

With a deep understanding of pathology, a professional R&D team, and state-of-the-art facilities, HealthSky is revolutionizing the process of pathologic diagnosis to make it more standardized, automated, intelligent, and precise.

4 Software Copyrights

 HealthSky Template Editor

HealthSky Template Editor is used to design cassette or slide templates using texts, serial numbers, icons, and barcodes.

It allows users to create the design from the start or by editing the template by freely adding, deleting or moving the elements as well as changing their properties.

User-friendly Interface

Freely Template Design

Easy LIS Integration

Flexible Connectivity

Pathology, the bridge between science and medicine. HealthSky will keep striving for excellence, working for a healthier and brighter future for humans.

 HealthSky Print Asst.

EMarker PrintAsst. manages the running of the printer, as well as operation and data processing.

It is used to select templates, edit the printing data, sequence, and perform daily print tasks.

EBMarker-160

Multi Hopper Laser Cassette Printer

EMarker-21A-C600

Multi Hopper Ultraviolet Laser Cassette Printer

EMarker-21A-C600 utilizes laser printing technology to create crisp, permanent, and high-resolution markings at high speed.

It is a six-hopper cassette printer with a large capacity and supports hopper selection printing to meet the cross-selection of different tissue cassette types.

Model No.	EMarker-21A-C600	EBMarker-160
Printing Technology	Ultraviolet Laser	Infrared Laser
Compatible Cassette	45° angle marking surface, with or without lid.	POM material with laser absorber, 45° angle marking surface, with or without lid.
Print Speed	3~4 Second/ Cassette	
Resolution	2500 dpi	
Load Capacity	6 Hoppers	
Print Content	Alphanumeric, 1D and 2D barcodes, Graphics, Logos	
Auxiliary Functions	Repetitive task reminder, Running fault alarm	
Operation & Display	PC	
Software Compatibility	Windows11, Windows10, Windows 7, x64/x86; Windows XP	
Data Interface	Wire	
Integration	LIS/HIS	
Supply Voltage	100-240 VAC, 50/60 Hz	
Dimension (L × W × H)	320×425×510 (mm)	
Weight	24 kg	22 kg

Superior Print Quality

High Print Speed

Freely Hopper Selection

EMarker-21A-S100

Ultraviolet Laser Slide Printer

EMarker-21A-S100 utilizes laser printing technology that can leave permanent marks on the writing surface of the microscope slides.

EMarker-11A-S100

Laser Slide Printer

Compact Size

Scan to Print

Convenient Slide Collection

Model No.	EMarker-21A-S100	EMarker-11A-S100
Printing Technology	Ultraviolet Laser	Infrared Laser
Compatible Slide	Color frosted slides	Color frosted slides with laser absorber
Print Speed	3~4 Second/ Slide	
Resolution	2500 dpi	
Load Capacity	100 Slides	
Print Content	Alphanumeric, 1D and 2D barcodes, Graphics, Logos	
Auxiliary Functions	Dust filter, Scan input, Automated slide collector(optional) Repetitive task reminder, Running fault alarm	
Operation & Display	PC	
Software Compatibility	Windows11, Windows10, Windows 7, x64/x86; Windows XP	
Data Interface	Wire	
Integration	LIS/HIS	
Supply Voltage	100-240 VAC, 50/60 Hz	
Dimension (L × W × H)	245×410×360 (mm)	150×420×380 (mm)
Weight	18.5 kg	15 kg

EMarker-21A-C100

Ultraviolet Laser Cassette Printer

EMarker-21A-C100 is a laser printer that enables efficient, dependable, and error-free printing of cassettes.
